ZefaSys
IDEAS MADE BOLD AND SECURE

At Zefasys, we lead the way in crafting cutting-edge digital solutions in the cloud. Our cloud-first approach ensures scalable, secure, and seamlessly integrated solutions. With industry-leading expertise and a proven track record across diverse sectors, our dedicated engineers empower businesses with transformative cloud-based technologies, optimizing operations and driving sustainable growth.

Join us in shaping the future of digital innovation. **Start a conversation with us today.**

CORE COMPETENCIES

Cloud Engineering
Creating bespoke cloud solutions using modern development and migration strategies.

Software Engineering
Developing custom software with diverse languages and frameworks for varied projects.

Serverless Application Development
Building scalable applications triggered by events, maximizing efficiency and cost-effectiveness.

Development Operations (DevOps)
Automating cloud and non-cloud infrastructures for seamless collaboration and deployment.

Quality Assurance
Rigorous testing for bug-free mobile, web apps, ERPs, ensuring high-quality solutions.

Cyber Security
Leading in Governance, Risk, Compliance, Architecture, and Engineering for innovative security solutions.

Pharmacy Management
Crafting tailored IT solutions to optimize pharmacy operations and patient care.

Internet of Things (IoT)
Integrating smart devices and sensors for enhanced efficiency and new growth opportunities.

DIFFERENTIATORS

Innovative Cloud Solutions
Pioneering dynamic, scalable cloud solutions tailored to your unique needs.

Agile Development Approach
Delivering high-quality results swiftly through adaptable, agile methodologies.

Expert Multi-Industry Insights
Bringing cross-industry expertise to projects, spanning diverse sectors.

Human-Centric Design
Prioritizing intuitive interfaces and seamless interactions for enhanced user satisfaction.

Security-Centric Practices
Implementing robust cyber security measures aligned with industry standards for effective data protection.

Proactive Problem Solving
Identifying and addressing challenges proactively to ensure seamless project execution.

Tailored Pharmacy Management Solutions
Creating custom pharmacy systems optimizing operations and enhancing patient care.

IoT Expertise for Enhanced Connectivity
Empowering businesses with smart devices and sensors, unlocking growth opportunities and operational efficiencies.

PAST PERFORMANCE

BAXTER INTERNATIONAL

Challenges: Baxter, an international healthcare innovator, needed to transmit Monitor device data effectively for both on-site surgeons and remote observers.

Solutions: Zefasys developed a cloud-based application, web app, and mobile app, enabling seamless collection and playback of audio files from the Spartan Doppler device, enhancing accessibility and usability.

NOVO PULSE

Challenges: Doctors Chornenky and Jaafar sought to innovate arthritis treatment with NovoPulse, a patented non-invasive device. They required a custom storefront to sell, lease, and manage trial devices for chiropractic clinics.

Solutions: Zefasys created a website facilitating customer orders, managing device shipments, and enabling clinic management, ensuring efficient sales and distribution.

BRIDGION

Challenges: East African patients faced limited healthcare access due to a broken system. Bridgion aimed to bridge the healthcare gap, making quality healthcare accessible, affordable, and fraud-free.

Solutions: Bridgion utilized technology to connect patients with providers, eliminating fraud, ensuring medication authenticity, and enhancing healthcare accessibility and affordability.

VISYN

Challenges: VISYN revolutionized online learning with a focus on refining body movement. To expand its reach, it needed a cross-platform mobile application for various sports and physical activities.

Solutions: Zefasys developed a cross-platform hybrid mobile app, offering immersive training experiences across sports, leveraging neuroscience, advanced engineering, and captivating Visual Reps.

DROPT SOLUTIONS

Challenges: With the rising demands of e-commerce, missed deliveries posed a problem. Dropt Solutions aimed to redefine package deliveries using innovative smart-locker solutions.

Solutions: Dropt Solutions introduced secure smart-lockers utilizing IoT technology, ensuring 100% acceptance rates for packages, eliminating missed deliveries, and enhancing customer satisfaction.
